Subject: Re: Report of On-Scene Coordinator being threatened by local law enforcement

Folks, we need better clarity, not sure if it was a threat or the Individual was told to leave the premises.

Kurt, can you please check in with Chris Ruhl on a report we heard here at the HQ EOC related to the Gold King Mine Response?

We have heard anecdotal information that a local law enforcement threatened an On-Scene Coordinator that was part of the response.

Cardell, I know that you are not necessarily the contact with OIG for this incident, but could you please provide a contact for Chris and Kurt to ensure that we have proper representation from the IG.

Thanks all,

Brian
